To

The Firms dealing in Oil Engine Pumping Sets.

Enquiry No. 3299.

OIL ENGINE PUMPING SET FOR HANGALA WATER SUPPLY.

GENTLEMEN,

Please be good enough to intimate your best prices for delivery f.o.r., Gundlupet Out Agency, Mysore State Railway, and the earliest time of delivery for an Oil Engine Pumping Set of the following specification :—

Specifications for a Power Driven Pumping Unit required.

Pump.—The pump is to be either of the plunger or centrifugal type and be capable of lifting 1,000 gallons an hour against a total head of 165' from all causes.

The supply is to be drawn from a well 32' deep and the delivery head is 133'. Centrifugal pumps of the injector type that can work with a suction lift of 32' will be preferred and may be quoted for alternatively.

The pump should be of the best type and should be supplied with a foot-valve of ample size besides a delivery, a non-return valve and a pressure gauge. The accessories should be quoted for separately.

Engine.—This pump will have to be driven by an engine that can develop enough power at an altitude of 2,500' and at a maximum temperature of 100°F.

The engine should run on light diesel oil ordinarily available in the market.

The engine shaft should, if necessary, be extended on one side to take in the driving pulley.

The unit should be supplied with necessary pulleys and a complete set of spares.

The specifications should indicate the fuel consumption on full and half loads, and a test certificate should accompany the supply.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Oil Engine Pumping Set for Hangala Water Supply" with the above Enquiry Number.

This enquiry will be closed on the 16th March 1939.

No. S. P. C. 21777-805, dated 15th February, 1939.

To

The Firms dealing in Aluminium and Copper Wires.

Enquiry No. 3301.

ALUMINIUM CABLE AND ACCESSORIES OR COPPER WIRE REQUIRED FOR ELECTRIFICATION
OF CHITALDRUG AND TIPTUR.

GENTLEMEN,

I write to request you to quote your best prices and earliest time of delivery for the following materials:—

1. 266 Miles Bare aluminium cable, steel reinforced No. 2 B. & S. consisting of 6 strands of hard-drawn aluminium around a central core of galvanised steel, the diameter of each strand being 0.1052" and the overall diameter of cable being 0.316". The complete cable shall have a cross-sectional area (aluminium) of 66,371 circular mils and a conductivity equivalent to No. 4 B. & S. Copper. The cable shall have an ultimate strength of not less than 2,780 lbs. and a resistance at 25° C. of not more than 1.40 ohms per mile.
- 1.A. 266 Miles—Hard drawn copper wire No. 4 B. & S. consisting of 7 strands of hard drawn copper, the complete cable to have a cross sectional area of 41,740 circular mils and with an ultimate tensile strength of not less than 1,970 lbs. and a resistance of not more than 1.40 ohms per mile at 25° C.

The successful tenderer will be required to test before shipment samples of the cable supplied for Lapping, ultimate strength, Elastic limit and resistivity, etc., in accordance with the British Standard Specification No. 125/1930.

2. 1000. Aluminium Oval Twisting jointing sleeves for the above No. 2 A.C.S.R. cable.
3. 150 Parallel groove clamps 3 bolts type for the above No. 2 A.C.S.R. cable to connect aluminium to aluminium.
4. 50—Parallel groove clamps 3 bolts type same as above but to connect No. 2 A.C.S.R. cable, to No. 6 B. & S. copper wire.

The cables will be required to be shipped in the longest manufacture lengths on strong non-returnable wooden reels suitably protected to withstand all damage to the cable during shipment and overland transport.

Complete particulars of all materials covered by this enquiry shall be furnished by the tenderers. They shall also fill in the attached schedule when submitting their tenders.

The successful tenderer will be required to test before shipment samples of the A.C.S.R. cable supplied for ultimate strength, elastic limit, elongation, resistivity, galvanizing, etc., in accordance with the British Standard Specification No. 215/1934.

The prices to be quoted should be for delivery c.i.f., Madras.

This enquiry will close on 3rd April 1939.

SCHEDULE OF PARTICULARS TO BE SUPPLIED BY TENDERING FIRMS.

Copper Wire:—

1. Overall diameter of cable.
2. Number and Diameter of each strand.
3. Weight per mile of complete cable.
4. Ultimate strength of cable.
5. Elastic limit of cable.
6. Resistance per mile of complete cable at 25° C. Ohms.
7. Do do at 50° C. Ohms.
8. Length of cable in feet on each reel.
9. Net weight of cable on each reel.
10. Diameter and length of each reel.
11. Gross weight of each reel ready for shipment.

A.C.S.R.

1. Overall diameter of cable.
2. Number and diameter of steel strand.
3. Number and diameter of aluminium strands.
4. Weight per mile of complete cable.
5. Tensile strength of steel core, lbs.
6. Elastic limit of steel core, lbs.
7. Ultimate strength of complete cable, lbs.
8. Elastic limit of complete cable, lbs.
9. Percentage elongation in 10" of aluminium.
10. Percentage elongation in 10" of steel.
11. Resistance per mile of complete cable 25° C. Ohms.
12. Do do 50° C.
13. Length of cable in feet on each reel.
14. Net weight of cable on each reel.
15. Diameter and length of each reel.
16. Gross weight of each reel ready for shipment.
17. Process used for galvanizing the steel core.

No. S. P. C. 21678-85, dated 16th February 1939.
